Sage Product Price List 2012

Local Sage Support

Established in 1989 originally as a Sage software reseller, CSS has grown to include two separate divisions.

The IT and system side based in Great Yarmouth and the Sage software division in Lowestoft combine to offer a true 'one stop shop' for users of Sage Accounting and Payroll software.

Customers regularly comment that having the two expert companies under one banner makes solving any problem so much easier.

With five staff employed in Lowestoft, CSS is the largest independent Sage 50 support centre in the region.

Training Rates	CSS Support Members	
Full Day (6.5 hours)	£ 450	£ 360
Half Day (Min 3 hours)	£ 225	£ 180
